Nacional  
de Planeación

To Build a credible national data systems for results based monitoring and evaluation of the SDGs, Sinergia has pass through three stages:

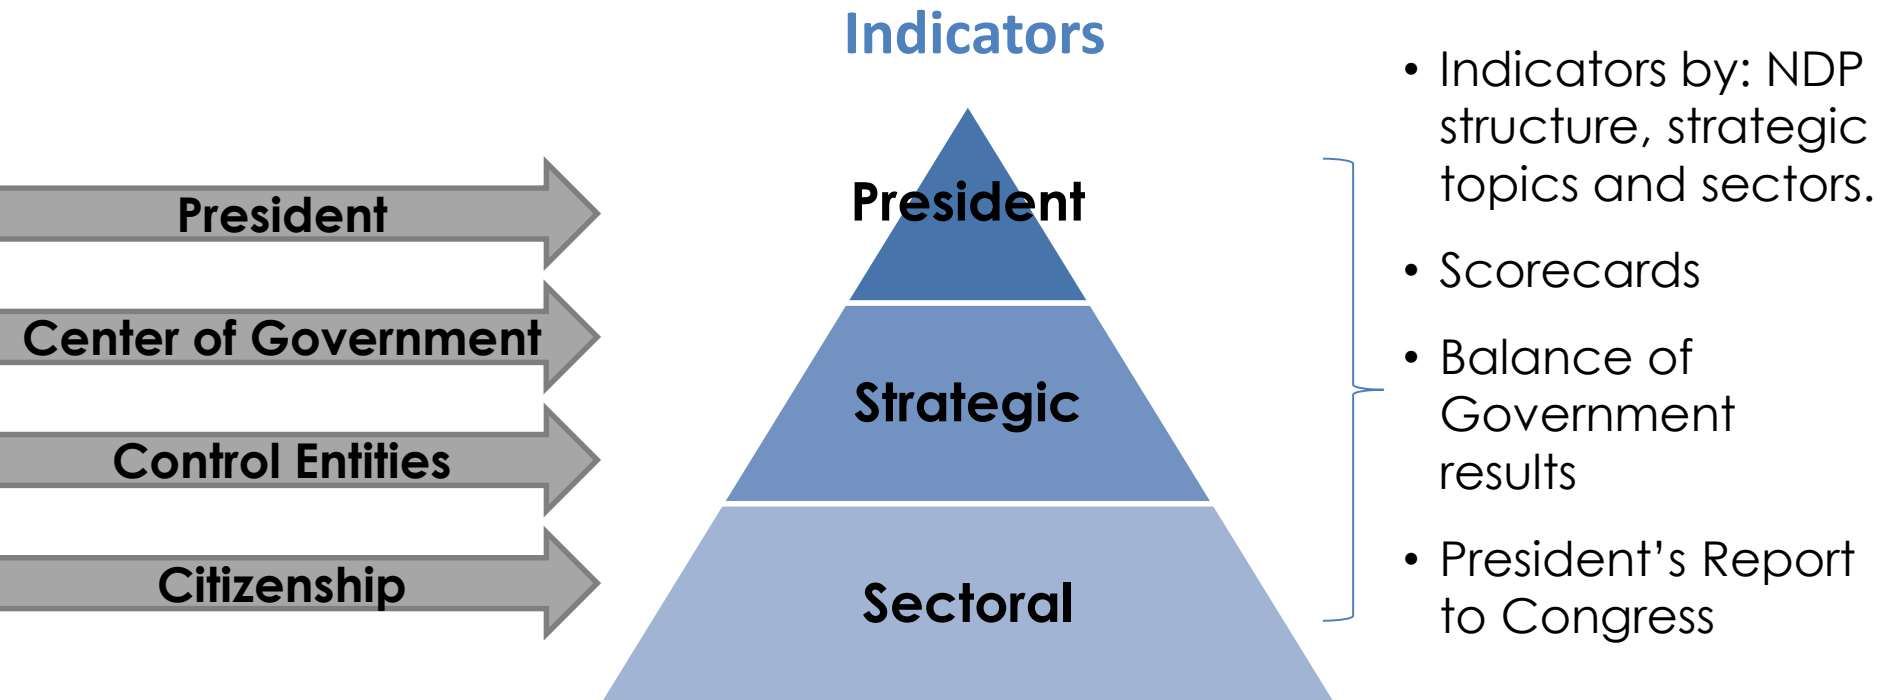

**1987** State modernization

**1991** Planning and M&E were constitutional mandate

**1994** DNP is in charge of national M&E (Planning Law)

**1994** Sinergia was created (by Decree)

Evaluation model from the demand and supply side, with standardized process and tools

Based on the demand of strategic public policy evaluation...

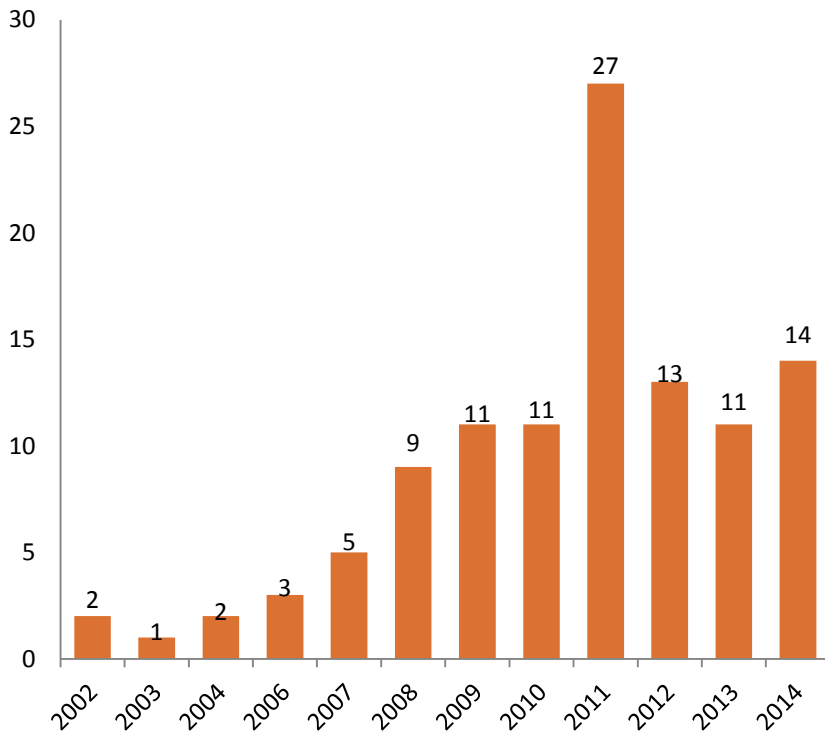

Sinergia has a standardized and participatory process for the design, development and dissemination of evaluations.

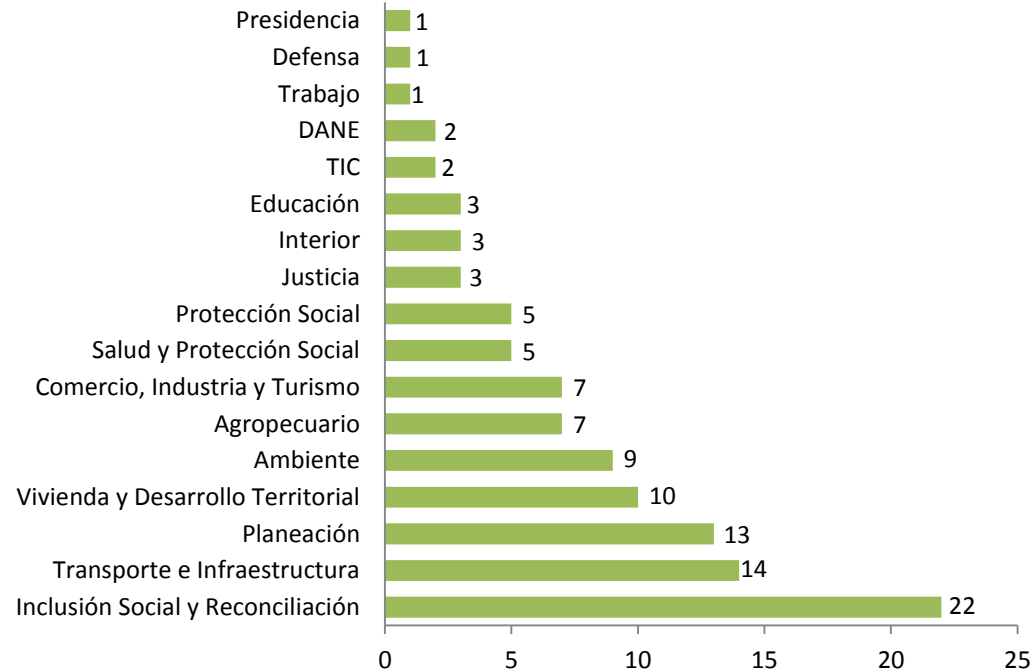

We have been working to increase the amount and diversity of evaluations

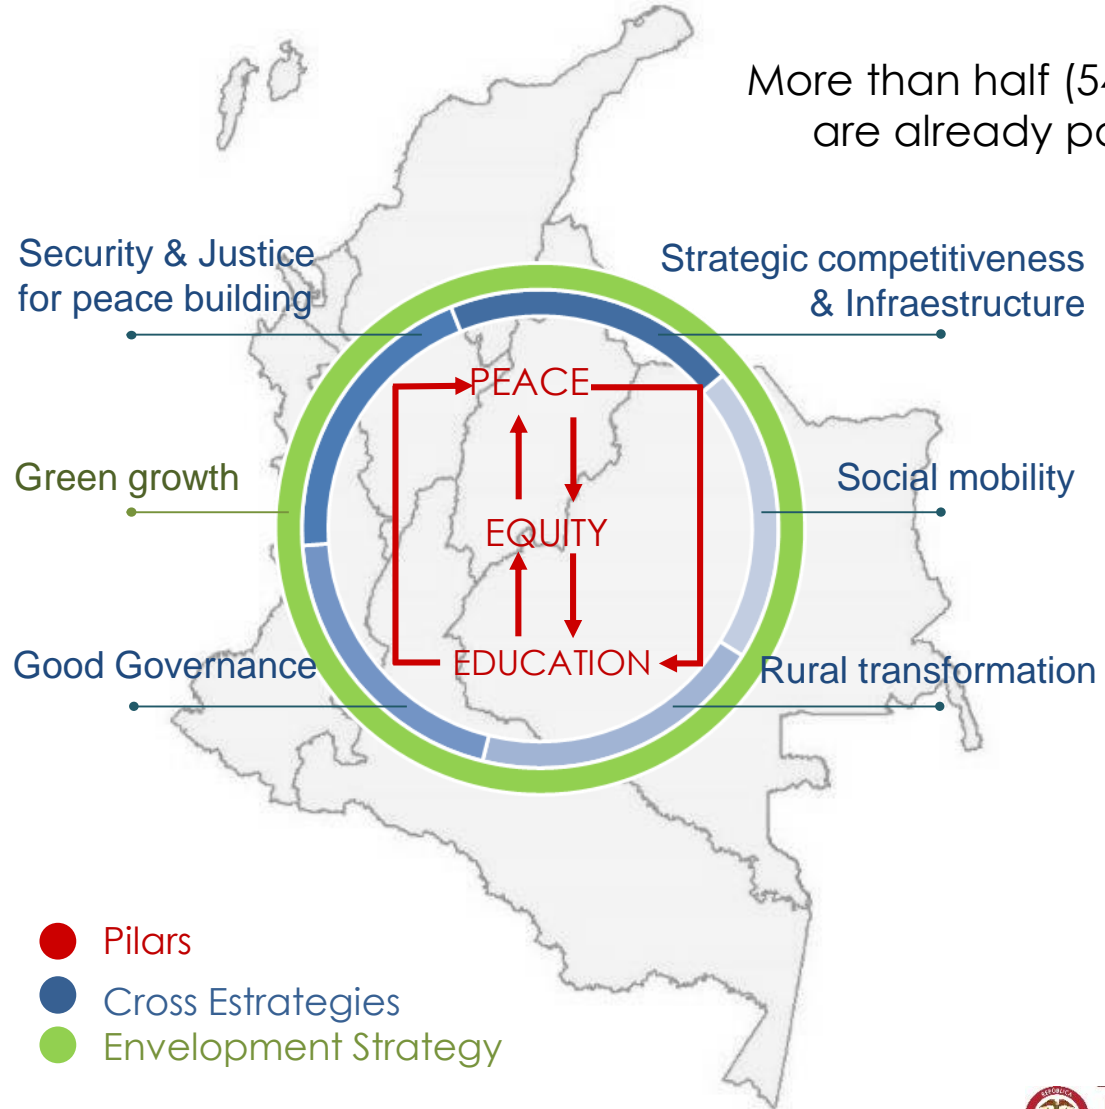

**Number of evaluations per year**

**Number of evaluations per sector 2002-2014**

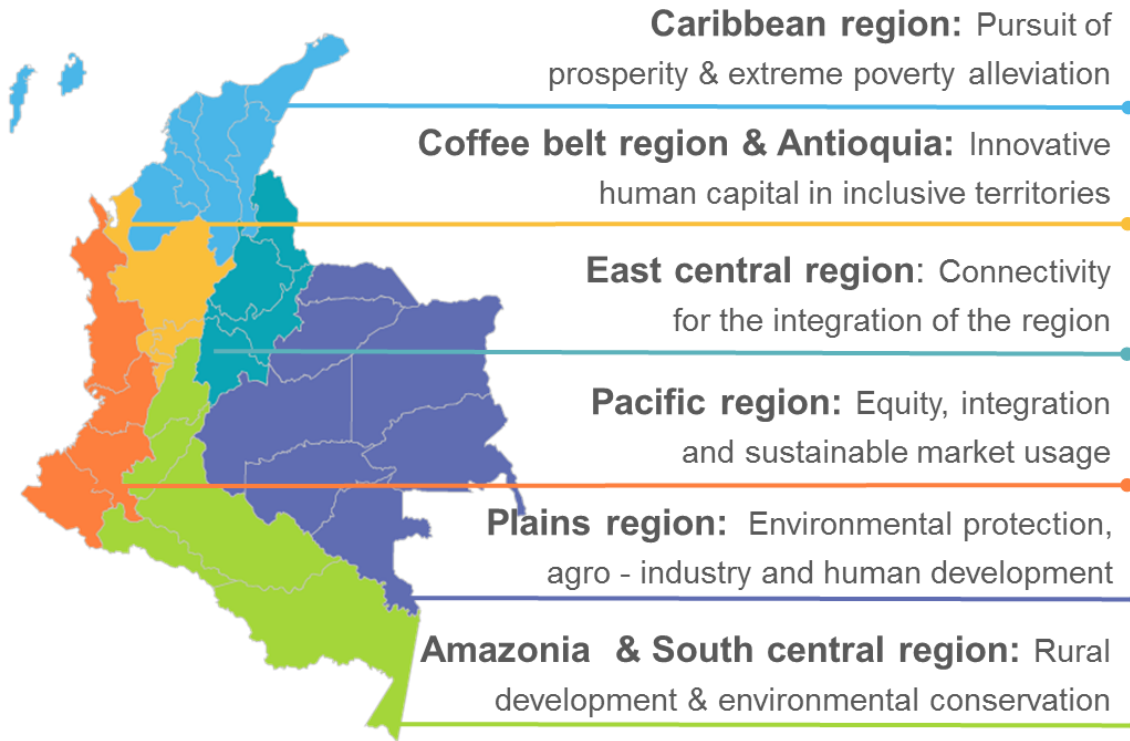

More than half (54,4%) of the SDGs are already part of the NDP.

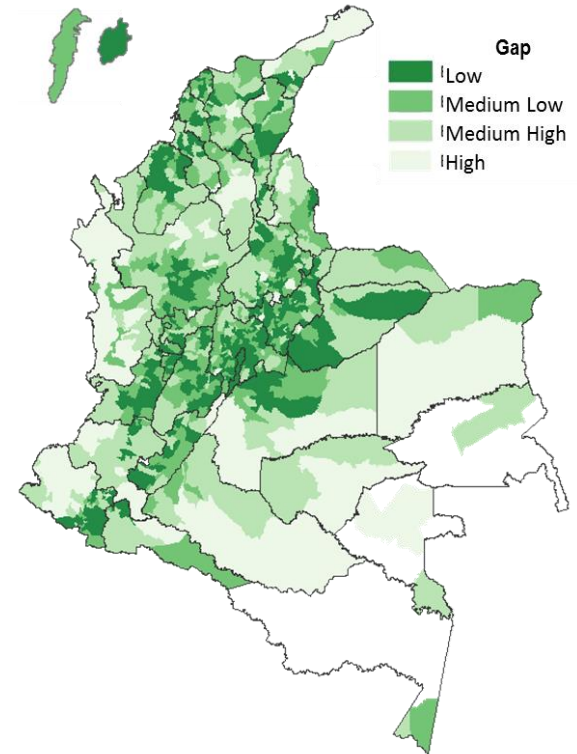

Our NDP has a regional approach with an emphasis on reducing social gaps

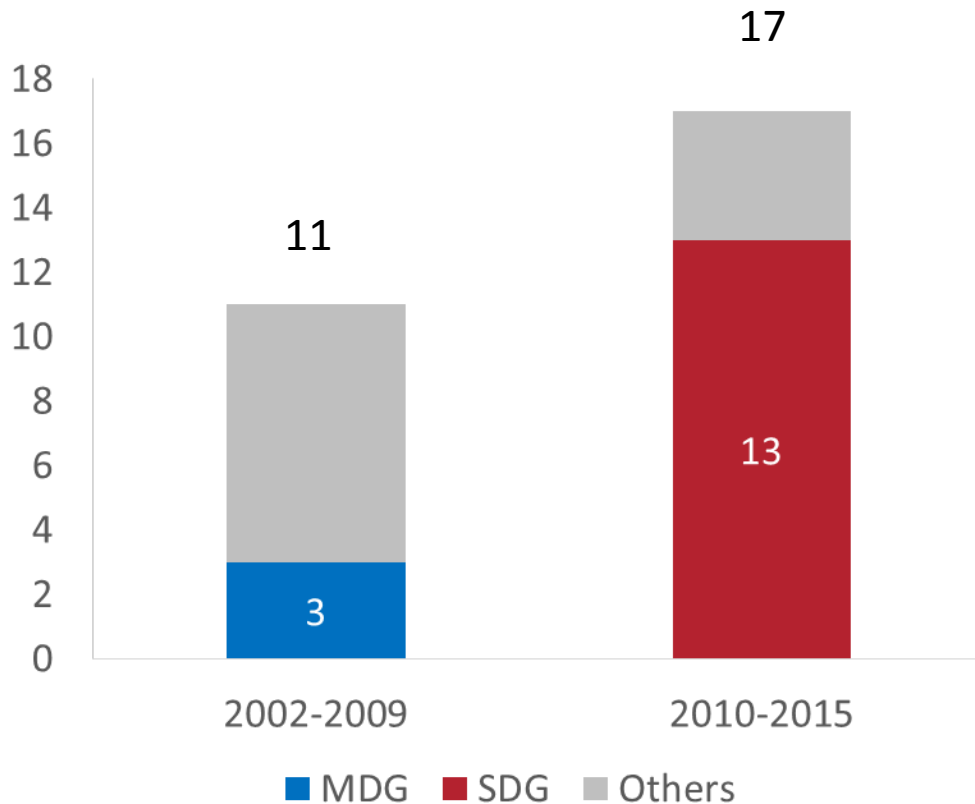

Source: NDP 2014-2018.

Source: NDP with information from Ministry of Education.

We have evaluation related with MDGs and SDGs topics, but we are working to reduce the gap.

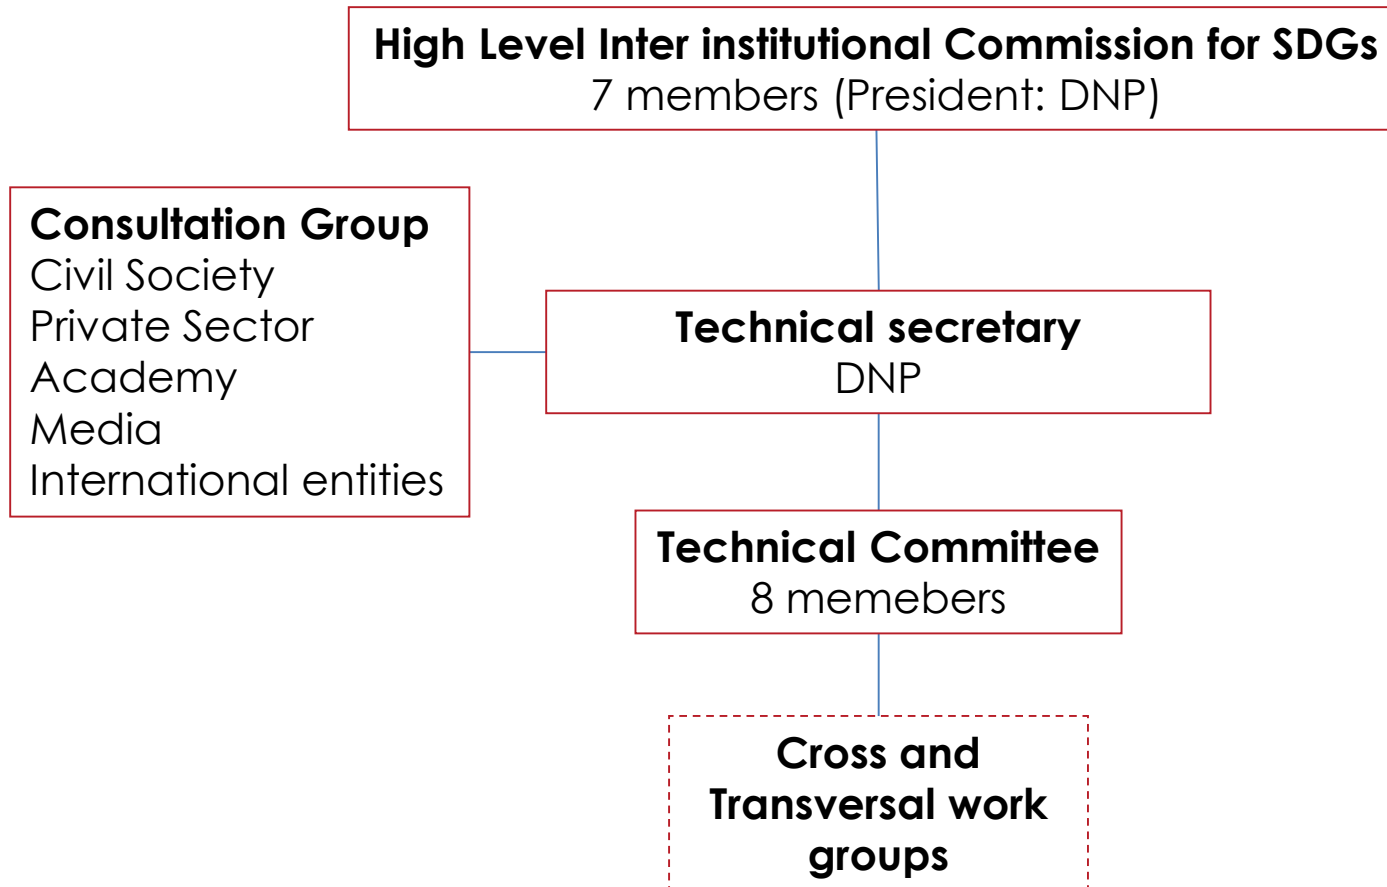

### Number of sectors evaluated by DNP

### SDGs topics not evaluated yet

- 
Gender equality (SDG 5)
- 
Affordable and clean energy (SDG 7)
- 
Reduced Inequalities (SDG 10)
- 
Responsible consumption (SDG 12)
- 
Life below water (SDG 14)
- 
Life on land (SDG 15)
- 
Partnerships for the goals (SDG 17)

In order to coordinate the SDG's implementation strategy in Colombia and its information system we are working within a High Level Inter-institutional Commission for SDGs

### Challenges to achieve **SDGs**

We need to improve results measurements (indicators for monitoring): e.g. open data and big data strategies

Implementation at the sub-national level

Partnership between Public Sector, Private Sector and Civil Society

Communication strategy
