

## LEAVING **NO ONE** BEHIND: EVALUATION for **2030**

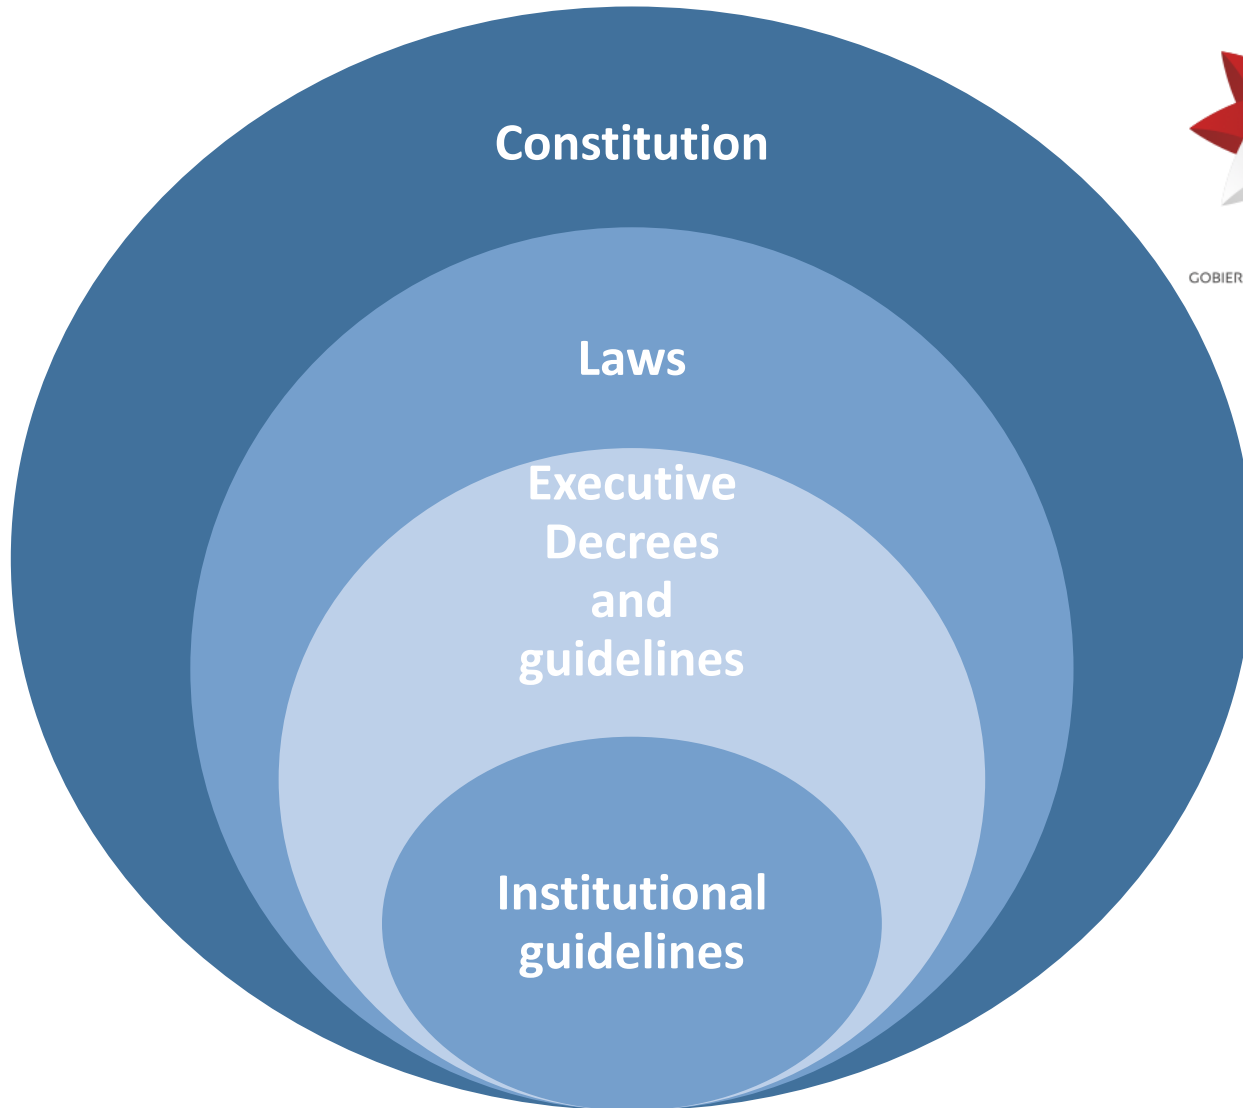

2019 National Evaluation  
Capacities Conference

# Institutionalization of evaluation in Costa Rica: challenges and lessons learned

Carolina Zúñiga Zamora, Mideplan

# Regulatory framework for evaluation

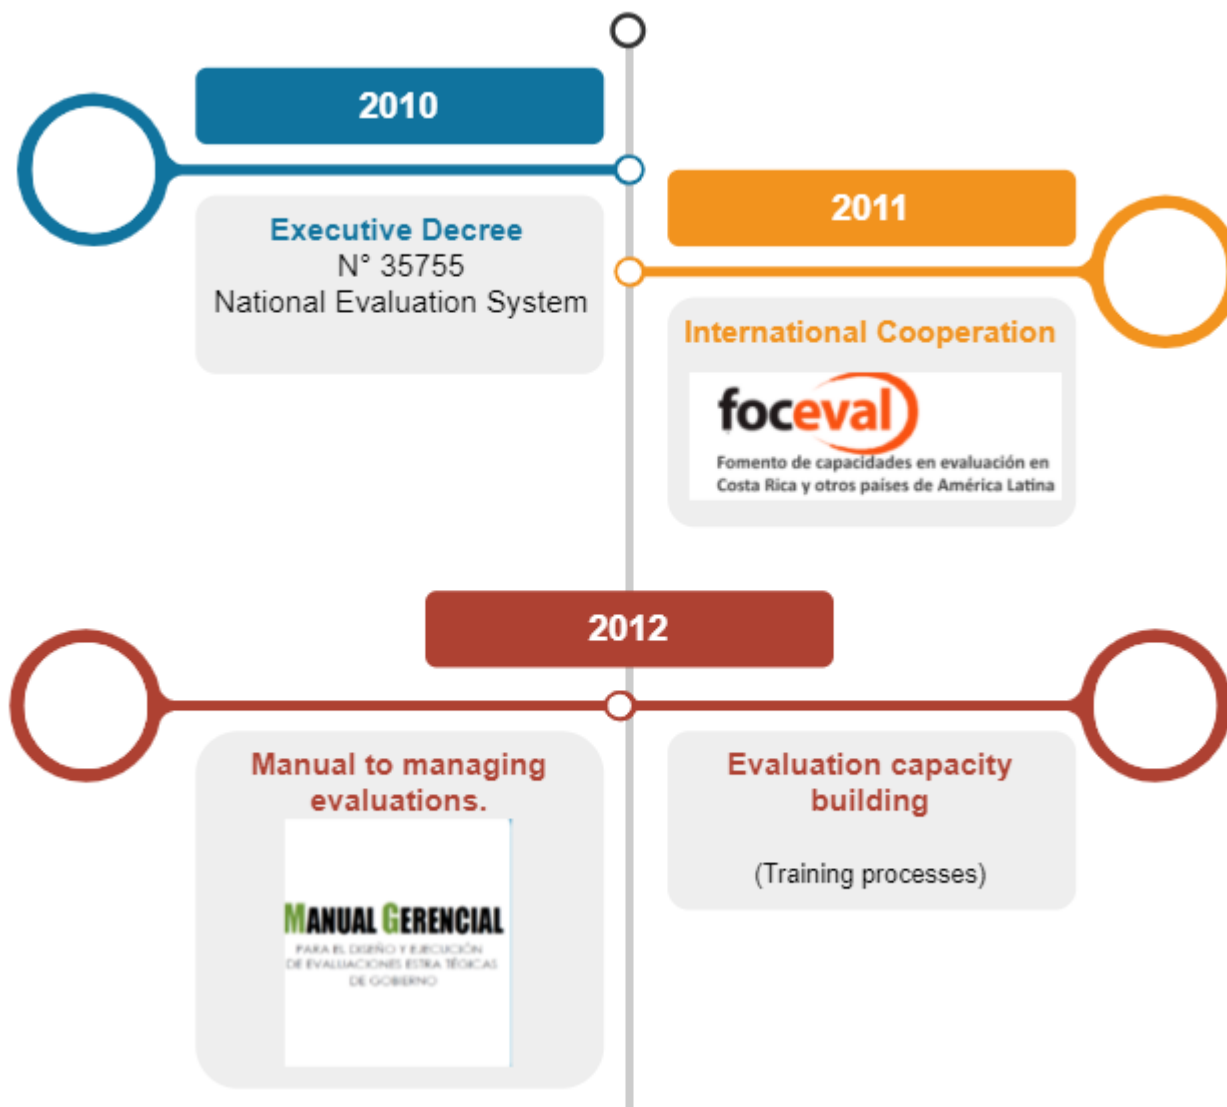

**mideplan**  
Ministerio de Planificación Nacional y Política Económica

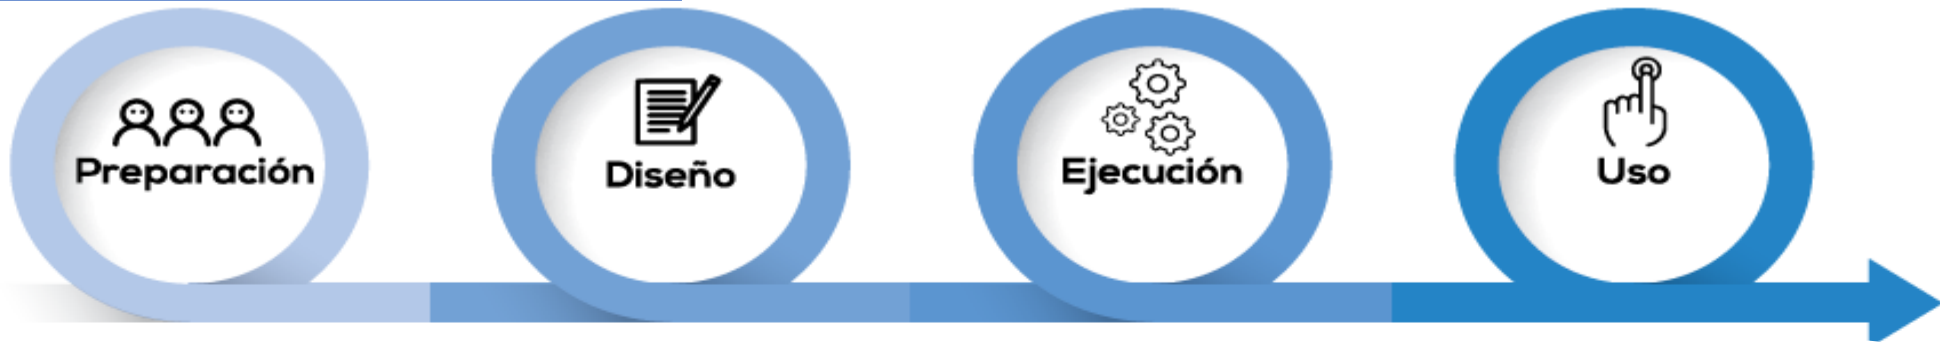

National authority in  
M&E

# Milestones in strengthening of the National Evaluation System in Costa Rica

# Methodological guidelines to manage evaluations in the public sector.

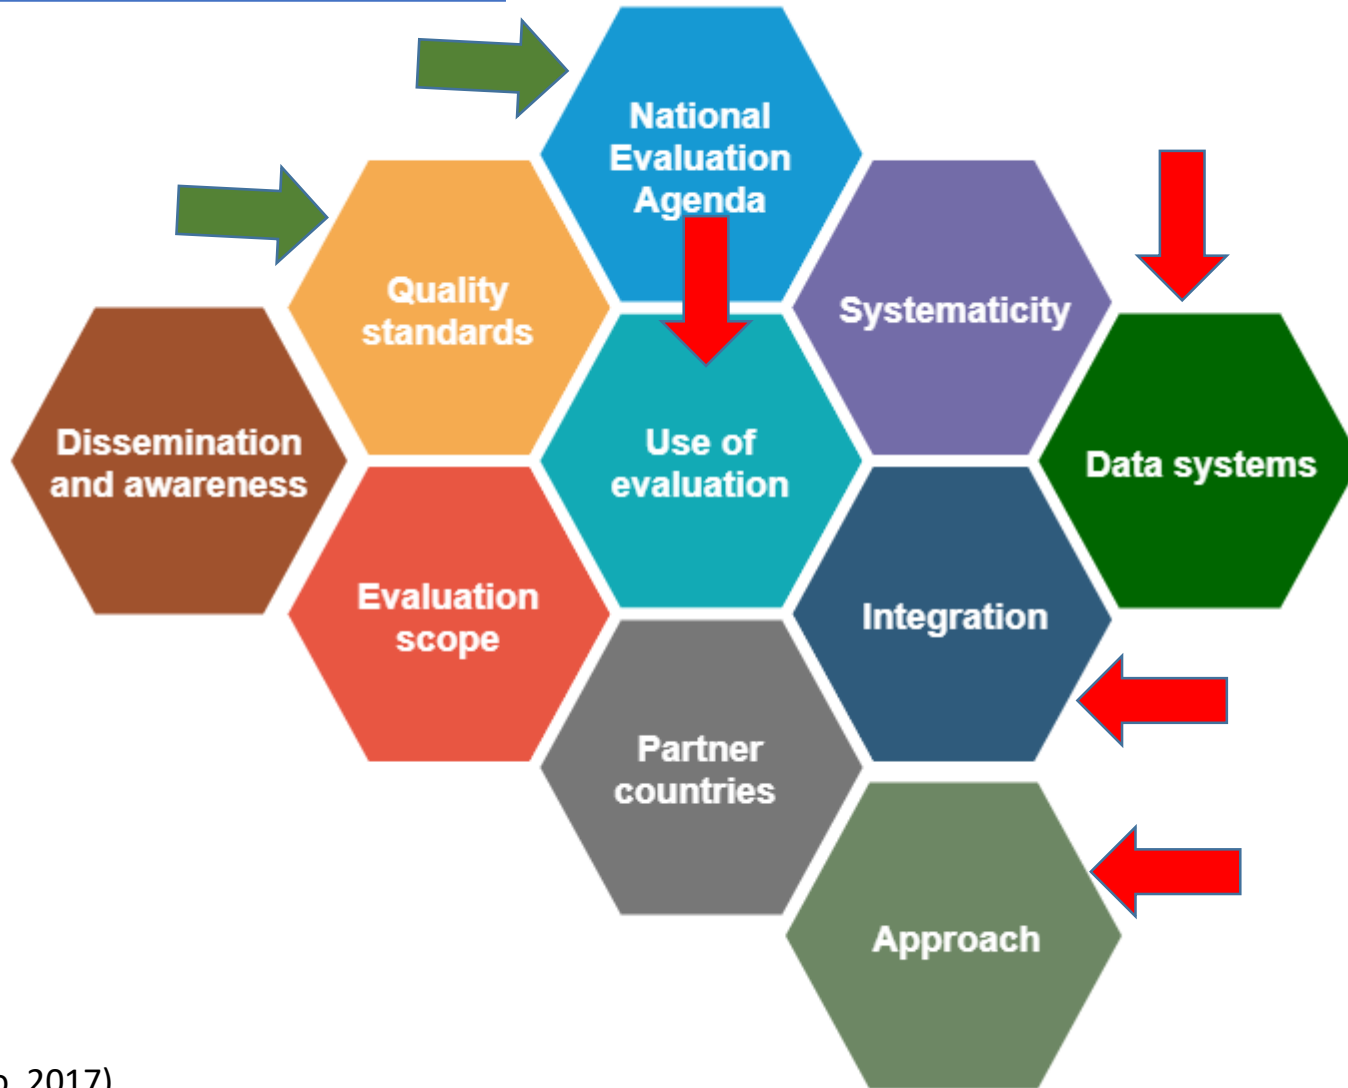

mideplan  
Ministerio de Planificación Nacional y Política Económica

# Challenges

# The key variables to assess national evaluation systems: internal reflections.

(Mattar y Cuervo, 2017)

# Challenges for Institutionalization of evaluation

---

- Strengthen the linkage of the evaluation and the systematic use of its results in the public management cycle for development results.
- Increase the support to the SINE and the ANE according to government periods, which implies to strengthen institutionalization.
- Develop incentives for the practice of evaluation, as well as linking it with the public policy cycle.
- Promote evidence-based decision making for the improvement of the designs, implementation, and results of public interventions.
- Deepen the scope of evaluations, to have better measurement and assess of effects of public interventions (databases and information systems).
- Integrate the participation of different publics in evaluation processes to strengthen transparency, accountability, and legitimacy of public actions.
- Evaluation of SDG's and 2030 agenda.

# LESSONS LEARNED

Evaluation = a tool for better understanding and  
and an input to a better resolution of problems

- Political accountability,
- Multi-stakeholder alliances,
- Resources,
- Institutional capacities,
- Sensitization,
- Technical-methodological framework,
- Coherence of the PP cycle.
