(data can be generated with some efforts)

2018

Myanmar Sustainable Development Plan  
(MSDP)

Current Layout for the NECD work

Financial Auditing and Regulations

Sectoral M&E Systems (Flagships)

Development Assistant Policy  
Sector groups

National Indicator Framework (MSDP)  
Working/Tasks group

Appraisal unit/bank  
Entities

National Statistical Development Sectors

NECD working Group

Third party technical agencies

Findings focus on:

## ENABLING ENVIRONMENT

- The key purpose of demand on Evaluation
- Evidence-based policy formulation and planning practices
- Political support and adoption of the evaluation and its culture and some champions;
- Current system on data, statistics and public finance inclusive of implementation challenges

## Findings focus on Capacity:

### INSTITUTIONAL

- Advocacy for evidence-based policy.
- Use of evaluation to current practices and availability of data.
- Role of ministries/departments on Evaluation (M & E) and institutional arrangement;
- Capacity building and development;

### INDIVIDUAL

- Capacity building at individual level for demand, use and execution of evaluation.

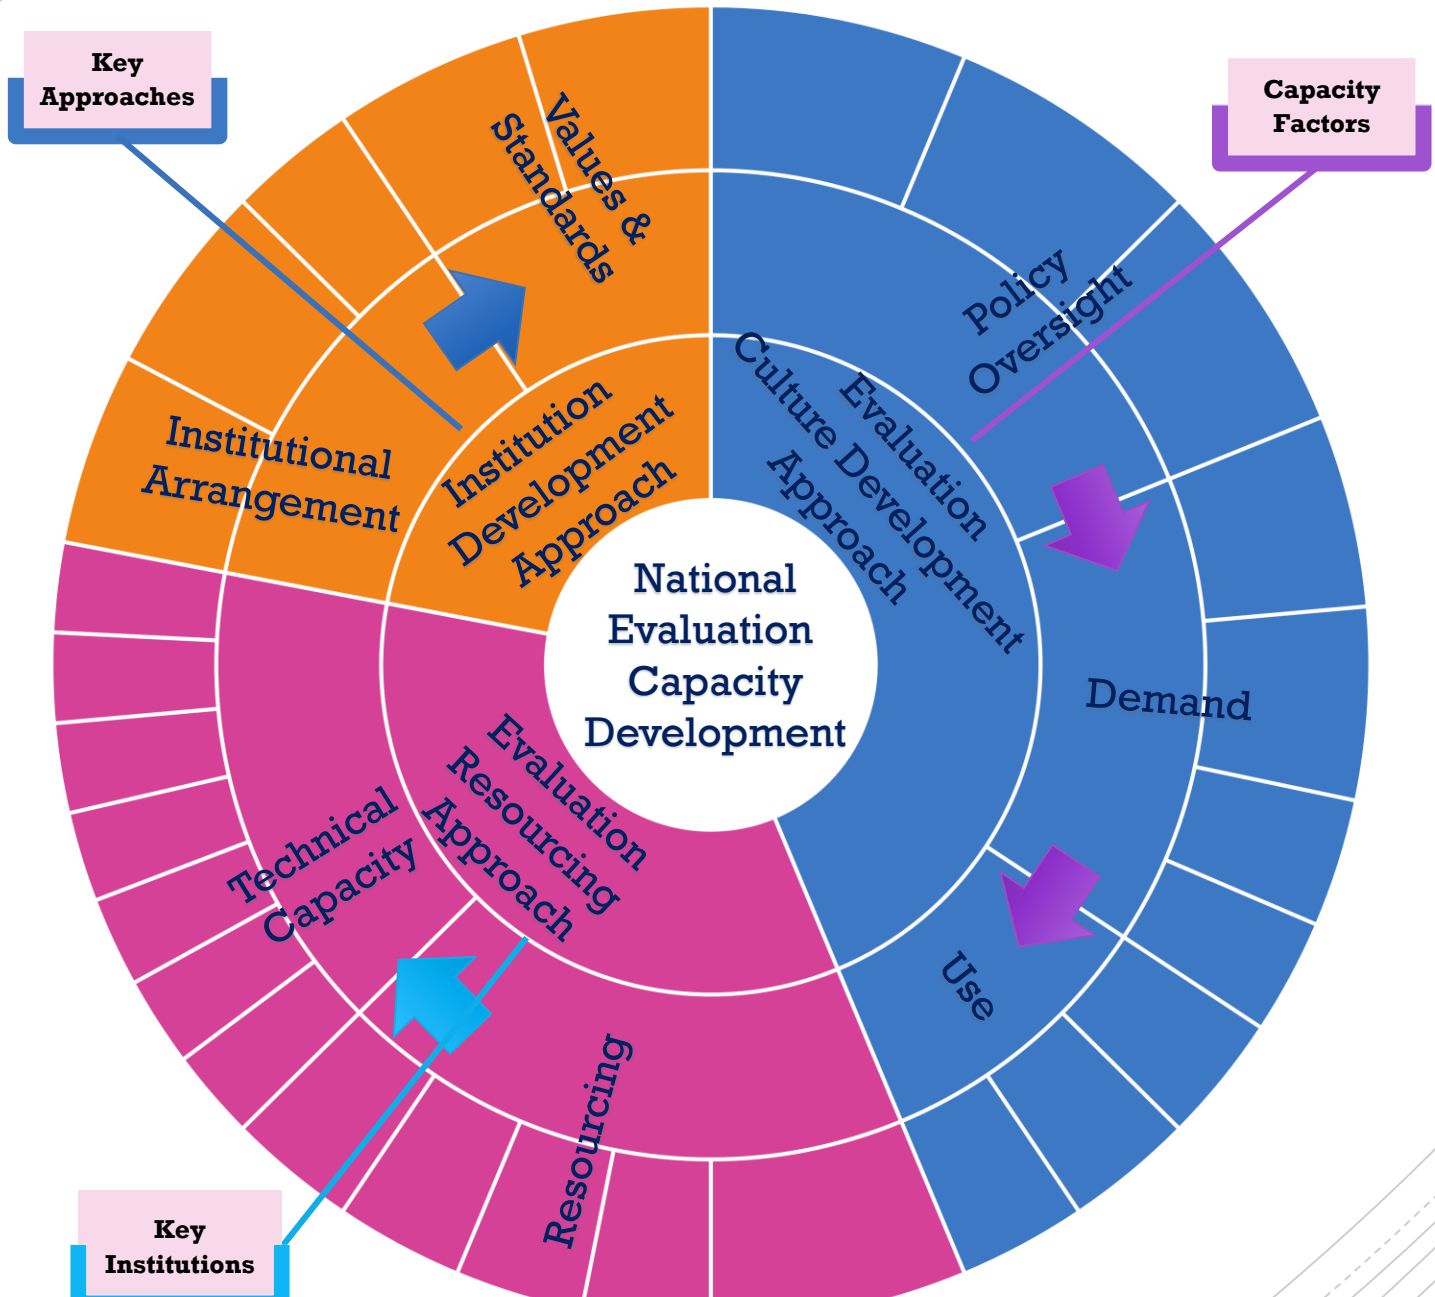

## Lesson Learned and Suggestions

- **Enabling Environment**
- **Institutional Capacity**
- **Individual Capacity**
