Question 1

How has your partnership promoted the transformation of evaluation? What has been the contribution of your organization to the partnership and its transformative results?

Question 2

How was your partnership established, and how did it evolve over time in order to adapt to changes? Any lessons about how partnerships can effectively address the emerging evaluation needs for achieving the SDGs?

Question 3

Looking into the future: what key lesson or tip from your partnership experience would you like to share with us?
