SDGs Coordination and M&E of Bangladesh

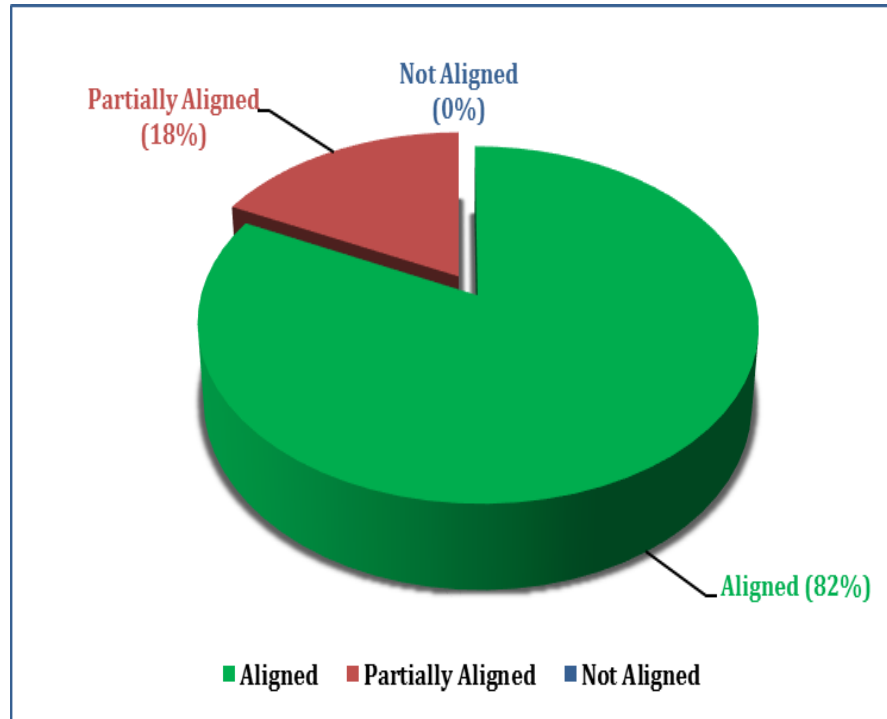

Alignment of SDGs with 7th FYP

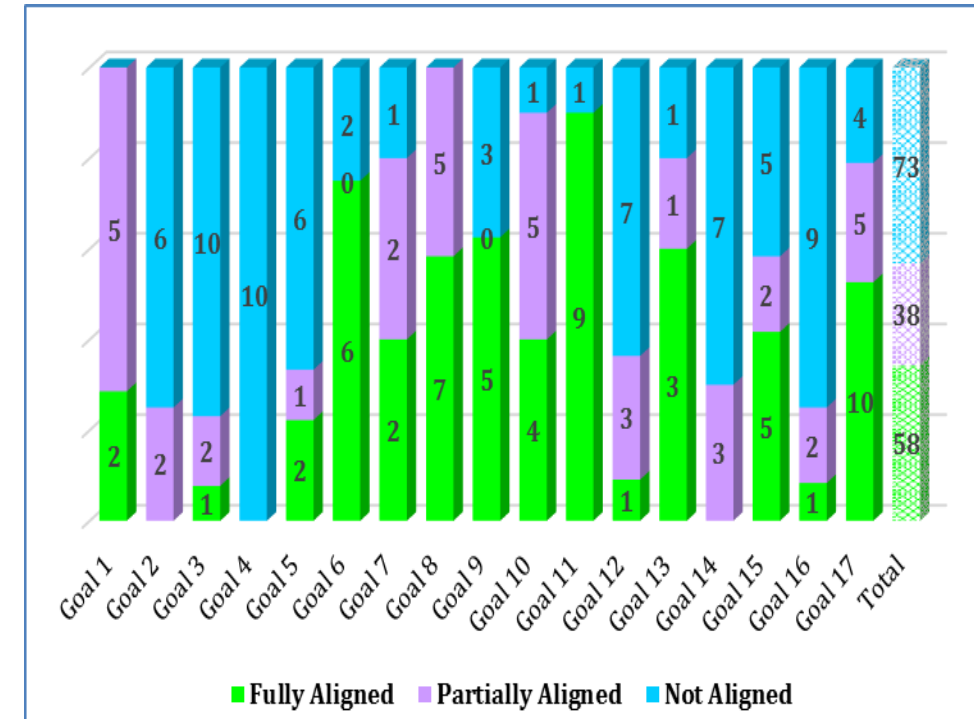

- As an 'early starter' country to implement Agenda 2030, Bangladesh emphasized SDGs while setting up the priority areas for 7th Five Year Plan (2016-20).

- A total of 14 goals (82%) are found to be thematically fully aligned with the plan document
- 3 Goals - Goal 12, Goal 14 and Goal 16 (18%) are partially aligned.

Alignment of SDGs (Goals only) with the 7th Five Year Plan

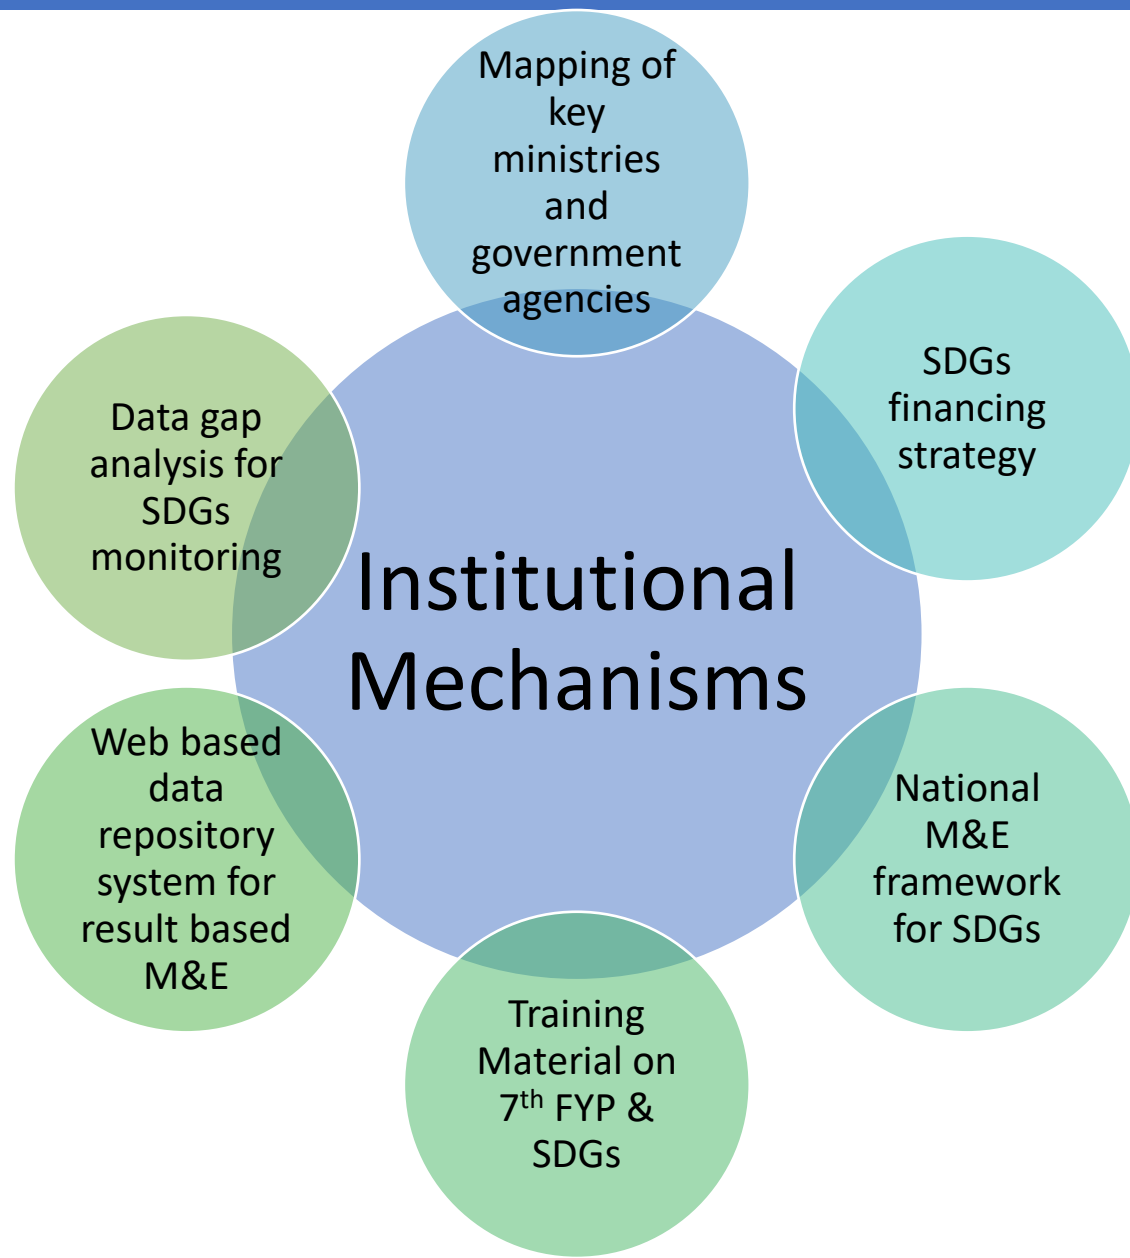

Alignment of SDGs (Targets) with the 7th Five Year Plan

58 SDGs targets are found to be aligned with 7th FYP (34.3%); 38 targets partially aligned (22.5%); 73 targets not aligned (43.2%)

Data Gap Analysis for SDGs Monitoring

% of availability of data against goals

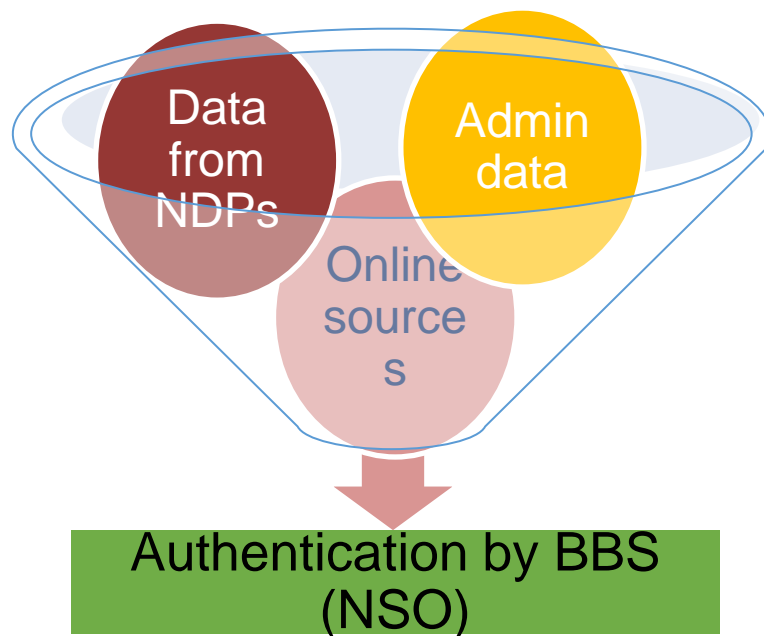

Study on SDGs Needs Assessment and Financing Strategy for Agenda 2030

- ‘SDGs Needs Assessment and Financing Strategy’ has estimated the resources needed for achieving SDGs in Bangladesh by 2030.
- In Bangladesh, around **928.48 Billion US\$** additional funding would be required from 2017 to 2030 to fully implement the SDGs (2015-16 constant prices). Annual average cost would be **66.32 billion US\$**
- It would be **19.75%** of the accumulated GDP under 7th FYP extended scenario during the period FY2017-FY2030.
- Of the additional required costs, **domestic financing: 85.1%** (US\$ 796.09 billion); **External financing: 14.9%** (US\$ 132.39 Billion).
 - Of the domestic financing, Govt: 33.5%, Private: 42%, PPP: 5.6%, NGOs: 4%.
 - Of the external, FDI: 9.95%, Aid & Grants: 4.94%
- Annual average: **US\$ 56.86 Billion** from domestic, **US\$ 9.46 Billion** from external sources (**FDI: US\$ 6.91 Bn/year; Grants & Aid: 2.55 Bn/year**)

Web-based data repository system for result based M&E

- A macro level data repository system is being prepared (SDG Portal & SDGs Dashboard)
- The system gathers all relevant information and statistics, all relevant outcome and output indicators
- NSO will act as the central coordinator among the data producing agencies

Technical:

Disaggregation of data (leave no one behind)
Survey methodology
Questionnaire preparation
Convert administrative data to official one
Understanding the metadata

Institutional:

Capturing administrative data
Frequency of data generation
Appropriate Human Resources
Institutional linkages with NSO
Ensuring availability, authenticity & reliability of data

Capacity development:

At the NSO level
At the Ministry/Division/Agency level
Lessons learnt from best practices
International cooperation required
(Financing, technology, logistics and human capital)

THANK YOU
ALL
