

“Responsive Evaluation: For Government, For Inclusions, For the Future”

Call for abstracts

(May 2024)

1 BACKGROUND

The Sustainable Development Goals (SDGs) aim for a better world by 2030 and seek to end poverty, fight inequality, protect the planet, and ensure prosperity for all. Evaluation can be a powerful tool for improving public accountability and learning, accelerating the implementation of the SDGs and positive development change globally.

Evaluation systems and capacity gaps at the national level, however, remain a major challenge in many countries. To address this, the Independent Evaluation Office of UNDP ([UNDP IEO](#)) has organized biennial [National Evaluation Capacities \(NEC\) Conferences](#) since 2009 in partnership with various governments.

In 2020, UNDP IEO joined forces with the [World Bank IEG](#) and other partners to establish the [Global Evaluation Initiative](#) (GEI), bringing together different national evaluation capacity development initiatives under one umbrella, including the network of [Centers for Learning on Evaluation and Results \(CLEAR\)](#) and training programmes such as [the International Programme for Development Evaluation Training \(IPDET\)](#). Since 2022 the NEC conference has been organized in collaboration with the GEI.

NEC’s audiences include:

- **Government officials from national and sub-national institutions** directly and indirectly engaged with evaluation and public policy, including central planning and finance ministries, sectoral ministries, evaluation units, national statistical agencies, and supreme audit institutions.
- **Civil society organizations, academia, and the private sector.**
- **UNDP/ UN agencies, international financial institutions, other development partners and global evaluation communities** engaged in supporting national governments with evaluation, governance, and the SDG agenda.

The [NEC conferences](#) will provide opportunities to:

- Share progress, lessons, innovations, experiences and perspectives in strengthening national monitoring and evaluation systems.
- Enhance the skills of those commissioning, conducting, using, and advocating for evaluation.
- Foster existing and new partnerships to strengthen national evaluation systems, with an emphasis on South-South Cooperation.

2 NEC 2024

The 2024 [National Evaluation Capacity \(NEC\) Conference](#) is the eighth in the series of conferences. The theme of the 2024 NEC Conference is **“Responsive Evaluation: For Government, For Inclusion, For the Future.”** This theme underscores the importance of sharing progress and lessons learned in strengthening national evaluation systems, their role in achieving the SDGs and other development goals, and how new technologies and approaches in evaluation can facilitate the achievement of the SDGs.

The Conference will take place in Beijing, China, from 14th to 18th October 2024. The first three days (14th -16th October) will be dedicated to the main conference, followed by a two-day post-conference training workshop (17th & 18th October 2024).

The Conference will be designed to provide all participants with multiple spaces for engagement. A mix of plenary sessions and parallel strands on a range of topics will be organized, using a variety of formats including keynote speakers, paper presentations, and panel discussions, as well as innovative arrangements that facilitate more informal discussion and sharing of experiences between partners.

This is a ‘by invitation only’ conference. Conference participants are identified through UNDP country offices, regional bureaus, and partner organizations.

The registration will open in August 2024.

The main working language of the Conference will be English.

Simultaneous interpretation from English into Chinese, French, and Spanish will be available for all conference sessions.

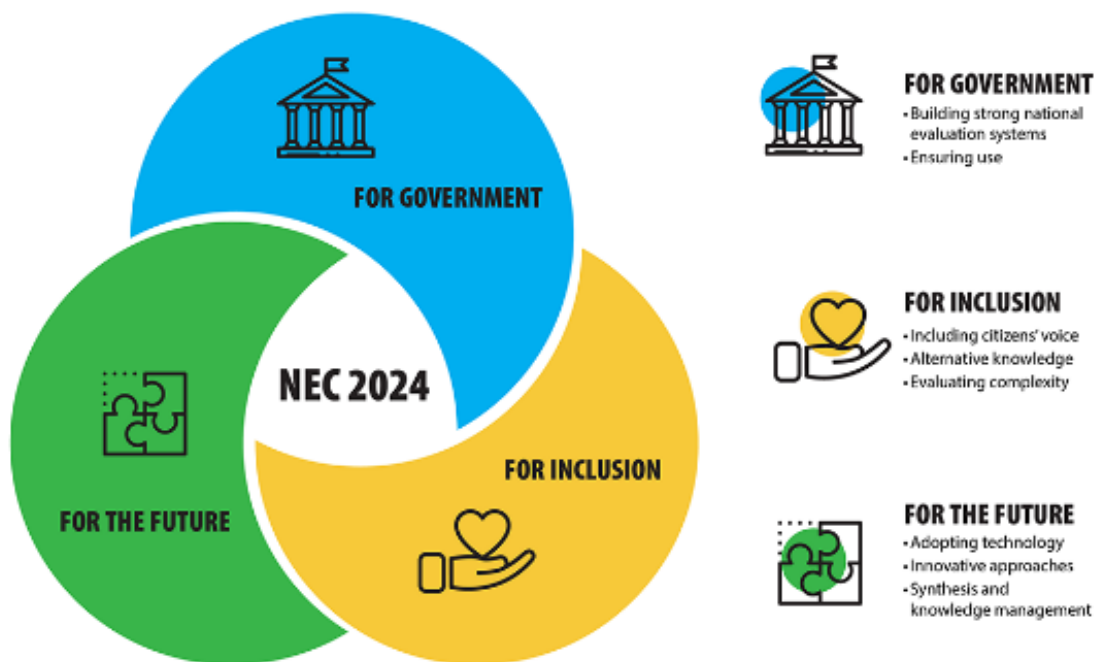

3 CALL FOR ABSTRACTS

We are pleased to invite government officials and other conference participants engaged in evaluation, governance, and the implementation of the SDG agenda to submit abstracts.

Submission procedure

[To submit a proposal, please click here.](#)

Submission is now open for proposed presentations or panel contributions until 28 June 2024. The preferred language for submissions is English, but abstracts in Spanish or French will also be considered.

Proposed topics

Submissions are encouraged around the following three thematic streams of the 2024 NEC Conference:

- **Stream A:** National Evaluation Systems – Building strong evaluation systems ensuring use.
- **Stream B:** Inclusive Evaluation Systems – Including citizens’ voice, alternative knowledge, and evaluating complexity.
- **Stream C:** Future-driven Systems and Approaches – Adapting technology, innovative approaches, synthesis, and knowledge. management.

Potential topics under each Stream are listed below as a reference. **Practical, real-life examples** of interest to fellow practitioners are particularly welcome. This could include innovation (an innovative nationally-led evaluation, new methods, ways of integrating the SDGs into an evaluation); examples of recommendations informing policy or procedure (an evaluation that led to policy change, experiences of institutionalizing evaluations and policy frameworks, a discussion between an evaluator and an evaluand about how an evaluation has been used, successful stakeholder engagement, or new institutional arrangements); or of challenges faced and lessons learned.

Stream A - National evaluation systems:

- **Building Robust National Evaluation Systems:** leaving no one behind.
- **Strengthening evidence-based decision making** at the country level: challenges and recommendations.
- **National policies and capabilities** for evidence-based planning and results-based governance. Overcoming challenges in institutionalizing evaluation.

- **Fostering Peer Learning and Collaboration to strengthen NES.**
- **Transparency and Participation:** Key Pillars of Effective National Evaluation Systems
- **Ensuring Data Quality and Accessibility:** Challenges and Solutions
- **Promoting Equity through Disaggregated Data:** Strategies for Inclusive Policy Development
- **Harnessing Technology for Data Collection and Evaluation**

Stream B - Inclusive evaluation systems:

- **Navigating Cultural and Contextual Diversity:** Tailoring Evaluation Systems to National Realities
- **Advancing Equity and Inclusion:** Strategies for Implementing Inclusive National Evaluation Systems
- **Beyond Numbers:** Capturing Impact with Inclusive Evaluation Frameworks
- **Inclusive Methodologies for National Evaluation Systems:** Bridging Gaps, Engaging Stakeholders and Empowering Communities
- **Building Inclusive Capacity:** Empowering Stakeholders for Effective Participation in Evaluation
- **Disaggregated Data for Inclusive Evaluation:** Addressing Disparities and Inequalities
- **Breaking Barriers:** Ensuring Accessibility in National Evaluation Processes
- **Equity Lens in Action:** Unveiling Systemic Inequalities through Inclusive Evaluations
- **Partnerships with civil society and the private sector** to bolster national evaluation capacities.

Stream C - Future driven systems and approaches:

- **Embracing technological change:** Strategies for Integrating New Technologies into National Evaluation Systems.
- **Innovative Approaches for Addressing Methodological Challenges** in Evaluation Practices.
- **From Complexity to Clarity:** Synthesizing Data in Evaluation Practices
- **Strategies for Enhancing Inclusivity** in National Monitoring and Evaluation Systems Amid Technological Transformation
- **Balancing Tradition with Innovation:** The Role of Ethical Guidelines and contextualization in Modern Evaluation Methodologies
- **Harnessing the Power of Synthesis Approaches:** Using and mapping existing evidence to meet the SDGs.
- **Adapting to Change:** Building Resilient National Evaluation Systems in a Rapidly Transforming World
- **AI-Powered Evaluation and Ethical Considerations:** Exploring Opportunities and Challenges for National Monitoring Systems.

Selection process

The submitted abstracts will be reviewed by using the following criteria:

- a. **Relevance:** The proposed presentation should be aligned with the conference theme and one or more of the conference strands.
- b. **Clarity and quality:** The abstract should clearly explain the example to be presented. Authors should prepare their abstracts with care, ensuring that the reader will understand the background of the issue(s), and the objectives and relevance of the proposed topic for presentation.

- c. Specificity and concreteness: The abstract must present a topic that includes concrete and specific examples (a good practice, lesson learned and/or a challenge that was overcome, for example).
- d. Innovation: The abstract must show an innovation or introduce a new topic or application in the field of interest.
- e. Gender equality and disability rights: Speakers will be selected with diversity and inclusion in mind, to promote a broad range of perspectives.
- f. Diversity: Efforts will be made to provide space to as many different countries and cultural viewpoints as possible.

The NEC Secretariat will reach out to the authors of the selected abstracts before **1 August 2024** with information of assigned sessions and presentation form.

The authors of selected abstracts will be invited to submit a short paper (3-4 pages) to be included in a publication of the Conference Proceedings.

For any questions about the abstracts, please contact the NEC Secretariat at ieo.nec@undp.org.

Annex 1: Past conference publications:

Annex 2: Abstract submission template (to be uploaded to the submission portal)

ABSTRACT SUBMISSION TEMPLATE	
Presenter's full name (title, name, surname)	Nader Sheikh Ali (Director of Cooperation with International Organizations)
Nationality	Syrian
Gender	Male
Country of residence	Syria
Institutional affiliation	Prime Ministry – Planning and International Cooperation Commission
Contact information including email and telephone	Nader.Sheikhali72@gmail.com 00963932828586
Title of the abstract	National Vision for M&E
Conference session	<input checked="" type="checkbox"/> Stream A. Responsive National Evaluation Systems <input type="checkbox"/> Stream B. Inclusive National Evaluation Systems <input type="checkbox"/> Stream C. Future Driven Systems and Approaches
Name(s), title(s) and institutional affiliation(s) of all other authors/contributors (if applicable)	Refaat Hejazi (Deputy Head of PICC)
Preferred format:	<input checked="" type="checkbox"/> Formal presentation (maximum 10 minutes) <input type="checkbox"/> Participation in a panel discussion where the experience can be shared <input type="checkbox"/> Participation in an interactive session where the example can be shared, without a formal presentation <input type="checkbox"/> Other (please specify) _____
I will need to apply for bursary support, if selected.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Language to be used for presentation	<input checked="" type="checkbox"/> English <input type="checkbox"/> French <input type="checkbox"/> Spanish <input type="checkbox"/> Chinese

Abstract Text (max. 500 words)

<p>National Vision for M&E</p>

Introduction:

In 2023, a devastating earthquake hit Syria, adding to the already difficult humanitarian crisis. This situation presented many challenges for the country's recovery and development. This abstract explores the important role of the coordination and management of foregoing assistance and international cooperation activities, and the crucial need to have a solid and strong M&E system in strengthening national evaluation systems to respond to the national needs and development. By focusing on inclusivity and innovation, these efforts aim to support the national efforts in achieving Sustainable Development Goals (SDGs).

Background and Objectives:

The crises in Syria (and later on the earthquake in 2023) showed us the gaps in Syria's evaluation capacity, especially in emergency response and recovery. There is a constructive discussion with UN agencies and international partners, aiming to start a comprehensive program to improve national evaluation systems. This program aims to make sure that recovery efforts are evidence-based, inclusive, and aligned with the SDGs.

Key Initiatives:

1. Building Robust National Evaluation Systems (programmes):

- a. Policy Framework Development: Creating a national policy (programme) for monitoring and evaluation that requires regular assessment of emergency response and recovery efforts as next step. This ensures that evaluations are part of national planning and decision-making.
- b. Capacity Building: Training for national official capacities and stakeholders in modern evaluation techniques, such as impact assessment and data analysis, to strengthen their skills.
- c. Institutionalization: Enhancing the national capacities ability to oversee and coordinate monitoring and evaluation activities related to emergency response and recovery.

2. Inclusive Evaluation Systems:

- a. Stakeholder Engagement: Involving various stakeholders, including local communities, non-governmental organizations, and vulnerable groups, in the monitoring and evaluation process to ensure the real impact of these programmes to their needs and addressed.
- b. Contextualized Approaches: Using context-specific monitoring and evaluation methods that reflect Syria's diverse socio-economic landscape.
- c. Participatory Evaluation: Implementing participatory evaluation techniques that allow communities to contribute to and benefit from the monitoring and evaluation findings.

3. Future-Driven Systems and Approaches:

- a. Technological Integration: Using advanced technologies data collection, and analytics to make monitoring and evaluations more efficient and accurate. However, more work is needed to advance digital transformation to fully support and modernize monitoring and evaluation processes.
- b. Innovative Methods: Applying innovative evaluation methods, including developmental evaluation and real-time monitoring, to adapt to the changing environment.

- c. **Data Synthesis:** Using existing data sources and data synthesis techniques to create comprehensive monitoring and evaluation reports that inform policy and program adjustments.

Lessons Learned and Recommendations:

From the Syrian experience, we learned the importance of:

- a. **Stakeholder Inclusion:** Making sure all relevant stakeholders are involved in the evaluation process to capture diverse perspectives and enhance the relevance of findings.
- b. **Capacity Development:** Continuously building capacity to keep up with evolving evaluation standards and practices.
- c. **Adaptive Management:** Using evaluation findings for real-time decision-making and adaptive management, especially in a post-disaster context.
- d. **Digital Transformation:** Understanding the urgent need to advance digital transformation efforts to support effective evaluation and sustainable development.

Conclusion:

Syria's efforts to strengthen its national monitoring and evaluation systems through benefiting from national valuable lessons and for other countries facing similar challenges has played a key role, there is still much work to be done, especially in digital transformation to build a path towards sustainable development. These abstract aims to inspire other practitioners to adopt innovative and contextually relevant evaluation approaches, enhancing the global dialogue on effective evaluation capacity development.
